

## **LICENSE SUSPENSION**

The CSED has the authority under MCA 40-5-701 and ARM 37.62.1301 through 1317 to suspend a license, certificate, registration, permit or any other authorization issued by an agency of the State of Montana. This includes most professional, occupational or driver's licenses, and can also include the eligibility for certain recreational hunting licenses issued by the Montana Department of Fish, Wildlife, and Parks.

A person may be subject to License Suspension action when a child support debt is greater than or equal to six (6) months support, or person fails to comply with a CSED subpoena.

If you have been served with a Notice of Intent to Suspend License, your options include paying the alleged debt in full, entering into a payment plan approved by the CSED, or requesting a hearing to show why license suspension is not appropriate. If you do not respond to the Notice, your license will be suspended without further notice to you.

If your license has been suspended by the CSED for failure to enter into a payment plan, failure to make payments according to the payment plan or you have not requested a hearing within the 60 day time period allowed, you may choose to attempt to resolve this informally with your case worker or request a hearing to determine if suspension of your license should be stayed. If your eligibility to purchase or apply for certain recreational licenses has been suspended it will remain suspended for the entire licensing year.
